

SERPENT AQUATICS GROUPS HORNBY ISLAND

RESCUE - DIVEMASTER-ASSISTANT INSTRUCTOR

The perfect scenario for our Rescue-Divemaster-Assistant Instructor weekend, the waters around Hornby Island are full of a rich variety of marine life. In any season, you can encounter Giant Pacific octopus, wolf eels, harbour seals, large ling cod and rock fish, colourful anemones and nudibranchs. In winter, Steller's and California sea lions gather in the area to feed on huge schools of herring. Their underwater acrobatics are a treat to watch. Good visibility and gentle currents make the Hornby Island area easy to dive. Drift dives, wall dives, deep dives, and sculpted sandstone reefs are all part of the underwater terrain.

LED BY PADI IDC STAFF INSTRUCTORS

This Seal Lion and Local Diving weekend is only for Rescue Diver Training and Divemaster/Assistant Instructor Internships. Weekend package includes accommodation, meals, dives, air fills, tanks, weights, and training sessions. Prerequisites apply to these training sessions, so check with Bob or Freeda. The cost is \$1,250 plus GST. Non-refundable deposit of \$600 due on reservation, \$300 installment due June 30, and final installment of \$387.5 (incl. GST portion) due September 1, 2018. **Reserve early** as there are only a limited number of spots remaining.
